Why Insight for Veritas

Get best-in-class services for maximum business impact.

Albert Einstein said, “Strive not to be a success, but rather to be of value.” Insight is Veritas’ #1 partner overall and the largest U.S. Technical Support Partner Program (TSPP) provider. We are also the first to obtain Insight OneCall™ TSPP authorizations in all three 360 Data Management Suites: Gold, Silver, and Bronze.

During our more than 20 years as a Veritas partner, we’ve covered a lot of ground. What matters most, however, is our ability to deliver clear value to our clients every day.

Insight is your expert connection to Veritas solutions that help your business run smarter.

Simpler, streamlined data management

Managing data across multicloud environments poses unique challenges. Cloud + Data Center Transformation (CDCT) and Veritas offer solutions that reduce complexity and optimize storage resources. This enables you to accelerate transformation, obtain cost efficiencies, and reduce risk.

Our Veritas services and products portfolio helps you address these areas:

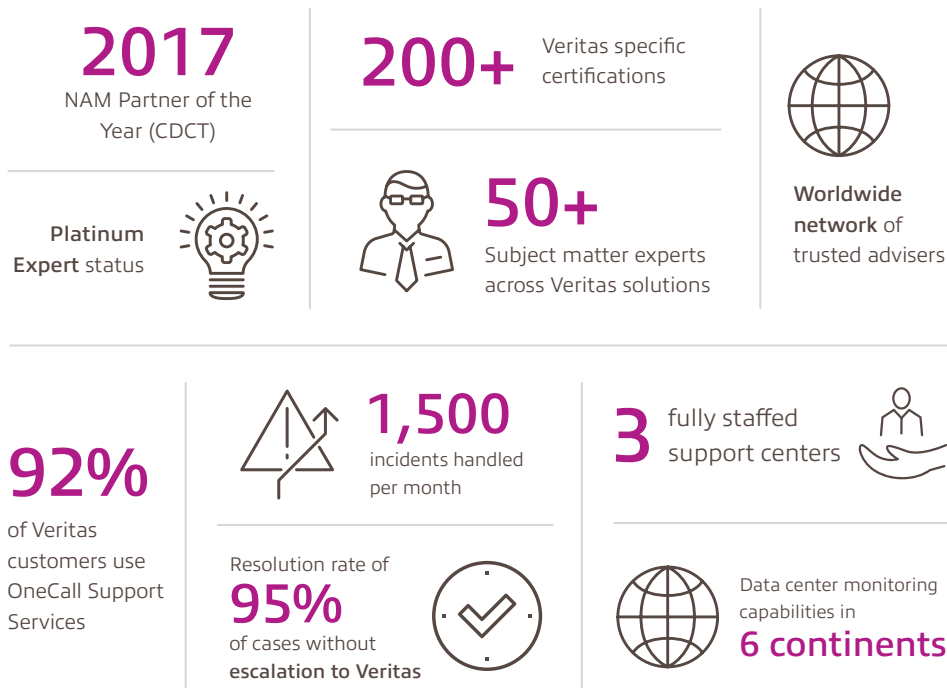

- Multicloud
- Data visibility
- Data protection
- Storage optimization
- Data and workload portability
- Recovery and backup

From multiplatform tools to view and protect your data, to software-defined storage solutions, to functions that help you easily deploy governance policy and make better decisions — CDCT and Veritas deliver an integrated, modern approach to managing data and applications.

Key points of our partnership

It takes time, investment, and commitment to develop a strong partnership. Our Veritas program is a prime example. Every day, our highly-skilled consultants, data center engineers, and architects help your business improve with Veritas solutions.

Here are some of the things we bring to the table:

Meaningful solutions driving business outcomes

We help our clients modernize and secure critical platforms to transform IT. We believe data is a key driver, hybrid models are accelerators, and secure networks are well integrated. Our end-to-end services empower companies to effectively leverage technology solutions to overcome challenges, support growth and innovation, reduce risk, and transform the business.
