OneCall support

Serving as your first line of support, our support engineers are available to begin the problem resolution process immediately upon your first call to CDCT. OneCall includes end-to-end problem determination and root cause analysis. In addition, advanced support engineers are available in real time for escalation and resolution of the most complex issues and product support needs.

CDCT is committed to providing exceptional service. If you are not getting what you need, please ask to speak to the OneCall duty manager. In addition, you can contact the following individuals to escalate your case, share concerns, or provide feedback:

Director, Client Support

Jack Sparks

Insight OneCall Support Services case flow

Support response policy

Priority setting	Initial response	Case updates ¹	
		Active case	Observing case
Priority 1	15 minutes ²	1 hour	N/A
Priority 2	1 hour	2 hours	24 hours
Priority 3	4 hours	8 hours	48 hours
Priority 4	24 hours	72 hours	72 hours

Notes: 1. An "active" case is being actively worked by CDCT. An "observing" case is monitored by CDCT and is awaiting new development.
2. CDCT typically responds to Priority 1 incidents in less than five minutes and works them continuously until resolved.

Priority level definitions

- **Critical (Priority 1):** Your system is inoperable or is at a severely reduced level of functionality resulting in an adverse impact on normal business operations, and no immediate work-around or resolution is available. You agree the incident will be worked continuously until resolved.
- **Severe (Priority 2):** You are experiencing intermittent failure or performance degradation that has limited normal business operations. These incidents are time sensitive and critical to productivity but do not cause an immediate work stoppage. No work-around is available and operations can continue in a limited capacity.
- **Medium (Priority 3):** Conditions are defined as a minor incident that can be worked around without major impact to your normal business operations.
- **Low (Priority 4):** General questions or a minor incident that has little to no impact on your normal business operations.

Through access to the same cumulative engineering knowledge that designed your solution, Insight OneCall Support Services help you resolve issues quickly and accurately. You can count on CDCT for rapid, impressive results from every interaction.

Service levels

Customer satisfaction ratings exceed industry benchmarks

Our best-practices support center provides you with:

- Real-time assistance with multiple contact options by phone, web, and email
- Industry-leading service level along with solutions-based call routing to the engineer with the right skill set right away — so you spend less time on the phone
- Case management tools that allow you to open cases online, make real-time updates, and review your case history
- Service level objectives that accelerate responses to the most complex questions and issues while providing automated alert notifications and timely status updates
- Single point of contact for support questions and issues spanning multiple vendors, product lines, and solution sets

Consolidating your support needs with CDCT streamlines report-to-resolution processes, reduces your IT problem engagement time, and maximizes uptime.
