

Solution Brief

Insight Cloud Care for Azure

Ensure the performance, security, and cost-effectiveness of your Azure® environment.

IT is evolving more rapidly than ever. It is crucial to prioritize innovation in order to secure a competitive foothold but not at the expense of operational performance. Herein lies the challenge: How do you refocus IT teams on strategic objectives while also implementing governance and optimizing costs?

Insight Cloud + Data Center Transformation (CDCT) offers a way forward with Insight Cloud Care (ICC) for Azure, part of our Managed Cloud portfolio. Leverage our expertise, tools, and automation to achieve speed, scalability, cost savings, and any other of your Microsoft® Azure goals, through effective governance and controls.

Do more with Azure

Microsoft Azure is a scalable and secure cloud platform that can play a key role in your transformation journey. We can help you make progress, more quickly and with better visibility, in ways that make the most impact on your business. Insight Cloud Care for Azure is designed to empower your IT teams, while we manage your Azure environment to specific cost and other objectives.

A cornerstone of our service model is our self-service, customized Cloud Management Portal (CMP). Here, clients are able to access, provision, and manage the cloud environment. We also deliver specific cloud metrics, dashboards, and cost optimization recommendations.

Expert cloud management

Insight Cloud Care for Azure is part of our Managed Cloud services portfolio. We leverage our expertise and best practices to ensure the stability and performance of your cloud or hybrid environment with 24/7 monitoring and incident management. We provide change management, patch management, and proactive cloud administration, offloading day-to-day burdens from your IT teams. And we offer service reviews, reporting, and cloud optimization services to give you increased visibility and control, as well as financial information to reconcile and justify your cloud investments.

Managed Cloud services:

Bring Your Own Cloud (BYOC)

We fully manage your internally built or CDCT-built cloud environment.

Enhanced cloud

Support or extend cloud services with solutions such as Insight OneCall™ for 24/7/365 incident resolution.

Industry cloud

Use our proven cloud frameworks to rapidly build a managed cloud made for your industry and business.

Self-service cloud

Leverage a thoughtful combination of managed services and self-service optimized for cost and experience.

Benefits of Managed Cloud

- Operational efficiencies that free up IT staff to focus on innovation
- Burstable performance for cost-effective, demanding workloads
- 15-minute P1 response
- Tighter IT/business alignment
- Increased ability to deliver business outcomes
- Use of both private and public cloud to optimize workload alignment
- Internet perimeter and internal application firewalls
- Virtually unlimited scalability
- Optional managed threat prevention
- End-to-end service management, including cost optimization
